B L D E's English Medium High School Tikota.	Karnataka State Board.	10 th	2017	83.68%

Professional Experience

As a Wipro Trainee Software Developer, I completed a 2-month intensive training in .NET Core with C#, enhancing my C# skills and gaining a comprehensive understanding of both .NET Core and .NET frameworks. I gained hands-on experience with Visual Studio and participated in knowledge sharing sessions on emerging trends. Now equipped with foundational skills in .NET Core, C#, and collaborative development, I'm eager to apply my expertise in live projects.

Duration: [04-07-2022] - [01-02-2023] (7 Months).

Designation: Scholar Trainee- WILP.

Key Projects

- E-COMMERCE WEBSITE (2024).

The e-commerce website, I have developed using HTML, CSS, and JavaScript, offers a user-friendly interface for seamless browsing, shopping.

- **SMART HOME AUTOMATION (IOT) (2022).**

The Smart Home Automation IoT project uses Sinric Pro to integrate Google Assistant and Amazon Alexa, offering voice-activated control of household devices for enhanced convenience, security, and energy efficiency.
